EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims

In claim 1: on line 4, "the" has been replaced with -- a --.

In claim 23: on line 3, before "grid", -- first -- has been inserted.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Best reference noted is Van De Pasch et al. Despite the similarity between the device of the patent and that of the present invention, a difference is noted however, and that is the second grid elements of the patent are on the object plane, whereas those of the present invention are on a plane other than the object plane. Further, the patent fails to teach or fairly suggest the implementation of various assignments of the first grid elements to the second grid elements in the manner now recited in independent claims 1 and 22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
